A. Assemble the seat : Parts of Group-1

Hold the metal bracket down firmly before pulling the lever. When the lever is pulled, it causes the metal bracket to spring into an upright position almost immediately.

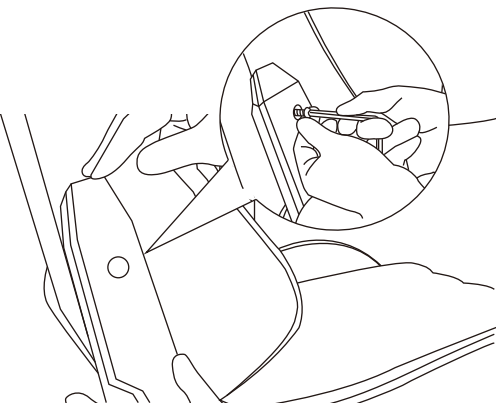

1. Attach the backrest to the seat.

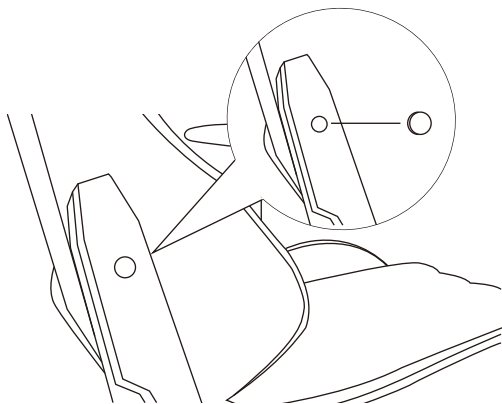

2. Fasten with screws provided.

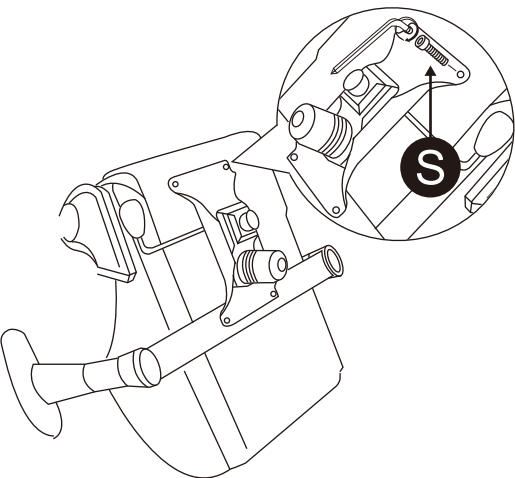

3. Fasten the protective covers with provided screws.

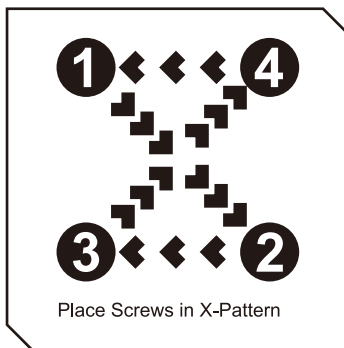

4. Cover the screw holes with the screw caps.

4. Align the butterfly mechanism with the screw holes at the bottom of the seat as shown in image below.

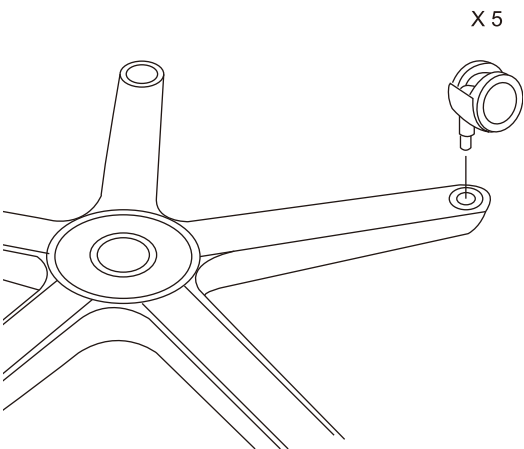

NOTE : Place the screws by hand before tightening them in an X-Pattern with the allen key.

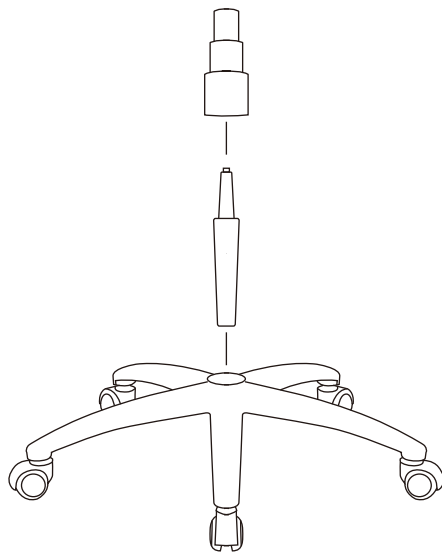

B. Assemble the wheel base : Parts of Group-2

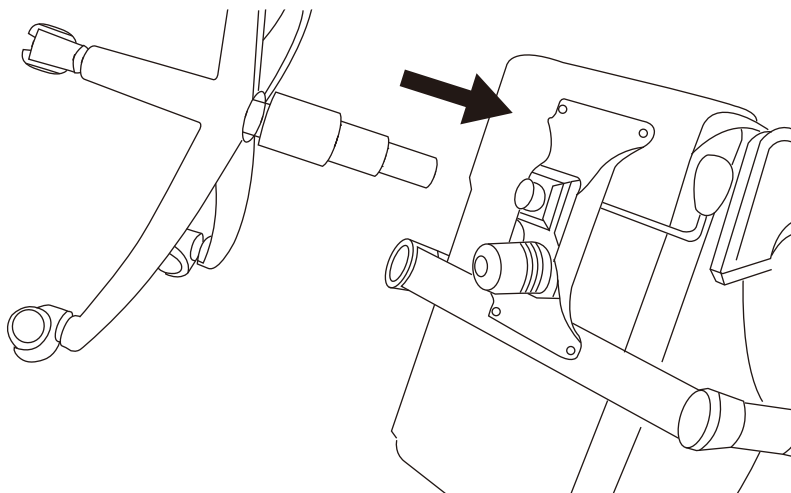

1. Push and twist the wheels into the star base.

2. Place the cylinder cover over the gas lift.

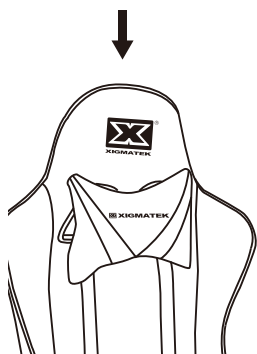

3. Place the chair face down and insert the star base into the butterfly mechanism.

A. Attach headrest cushion

1. Put headrest cushion on the backrest.

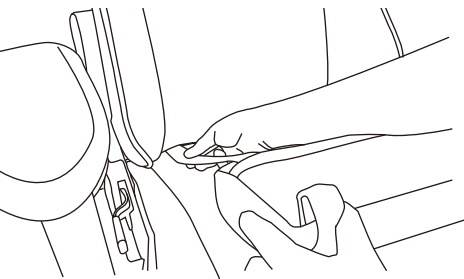

2. Pull the straps through the shoulder belt holes and click them into place.

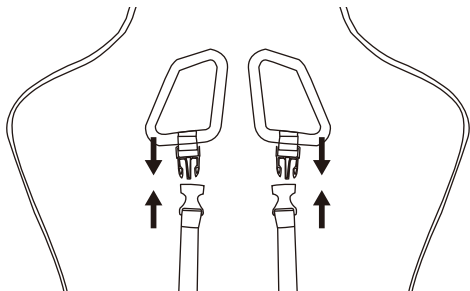

B. Attach back cushion

1. Slide the back cushion straps between the backrest and the seat and pull through from the back.

2. Pull the straps through the shoulder belt holes and click them into place.
